Features

A high performance PC in a lightweight form factor

Intel Pentium M 1GHz processor, Microsoft Windows XP Professional Tablet PC Edition, 256MB of memory and a 30GB hard drive with shock protection provide all the power you need in a Tablet PC form factor.

Freedom and mobility

Intel Centrino mobile technology integrates 802.11b wireless capability so you can connect anywhere a Wi-Fi network is available. It even helps extend your battery life so you can keep moving.

Convertible, powerful efficiency

The V1250 instantly converts from a notebook to a Tablet PC, so you can enjoy all the computing power of a notebook and the efficiency of a Tablet.

High resolution LCD display

The built-in light sensor automatically adjusts your display's brightness, for bright, crisp images and longer battery life.

Browse and navigate with ease

Five easy-launch keys, built-in scroll button, and a full-size stylus with eraser let you easily access the Internet and Microsoft Office applications and effortlessly navigate through them.

Your data is secure

Multi-level BIOS password security and BIOS-level signature authentication ensure your confidential data is safe.
