Deep tendon reflexes normal.

Test Results: Cervical x-ray reveals spondylosis.

Impression: Cervical spine subluxation.
Cervical sprain/strain.

As indicated above, during today's examination, John Doe of 50 years of age was evaluated for a new condition. The findings above are demonstrative of findings assessed during today's interaction. As part of our established protocol a detailed history was performed. Information was gathered from John and all those present during this examination authorized to give information on his behalf. As part of this initial evaluation and management procedure a proper history, orthopedic, neurological and physical assessment was performed.

Great emphasis has been placed on designing a descriptive document that will inform all persons involved in the decision making process of John's clinical status and present physical state.

Procedures: The following modalities and or procedures were applied to John: The posterior aspect of neck was treated with TENS unit, unattended. The articular facet of C2 treated with distraction by hand. Articular facet of T3, articular facet of T4, articular facet of C3, lamina of C4, lamina of C5 and lamina of T2 treated with gentle manipulation. CMT-spinal, five regions.

Plan: To begin with, patient will be seen 3 times per week for 6 weeks. After this period, if patient doesn't have a 70% improvement, he will be re-evaluated.

The following items were dispensed to the patient: cervical collar.

Orders:

Physical therapist was given orders to evaluate patient's condition and treat accordingly.

Follow-up: Return to office in 2 day(s).

Patient Instructions:

Patient completed ABN form

Dear Dr. Welby:

John Doe was seen in my office in consultation as requested by you as a new patient for evaluation and care. The following is a summary of my findings and recommendations:

Impression: Cervical spine subluxation.
Cervical sprain/strain.

As indicated above, during today's examination, John Doe of 50 years of age was evaluated for a new condition. The findings above are demonstrative of findings assessed during today's interaction. As part of our established protocol a detailed history was performed. Information was gathered from John and all those present during this examination authorized to give information on his behalf. As part of this initial evaluation and management procedure a proper history, orthopedic, neurological and physical assessment was performed.

Great emphasis has been placed on designing a descriptive document that will inform all persons involved in the decision making process of John's clinical status and present physical state.

Procedures: The following modalities and or procedures were applied to John: The posterior aspect of neck was treated with TENS unit, unattended. The articular facet of C2 treated with distraction by hand. Articular facet of T3, articular facet of T4, articular facet of C3, lamina of C4, lamina of C5 and lamina of T2 treated with gentle manipulation. CMT-spinal, five regions.

Plan: To begin with, patient will be seen 3 times per week for 6 weeks. After this period, if patient doesn't have a 70% improvement, he will be re-evaluated.

The following items were dispensed to the patient: cervical collar.

Orders:

Physical therapist was given orders to evaluate patient's condition and treat accordingly.

Follow-up: Return to office in 2 day(s).

Patient Instructions:

Patient completed ABN form

If I may be of any further assistance in the care of your patient, please let me know. Thank you for providing me the opportunity to participate in the care of your patients.

Sincerely,

John Smith, D.C.

Patient Instructions for John Doe on 7/22/2005

Patient's Name: John Doe Medicare # (HICN):

ADVANCE BENEFICIARY NOTICE (ABN)

NOTE: You need to make a choice about receiving these health care items or services. We expect that Medicare will not pay for the item(s) or service(s) that are described below. Medicare does not pay for all of your health care costs. Medicare only pays for covered items and services when Medicare rules are met. The fact that Medicare may not pay for a particular item or service does not mean that you should not receive it. There may be a good reason your doctor recommended it. Right now, in your case, Medicare probably will not pay for:

Items or Services:
Macro input here

Because:
Macro input here

The purpose of this form is to help you make an informed choice about whether or not you want to receive these items or services, knowing that you might have to pay for them yourself. Before you make a decision about your options, you should read this entire notice carefully.

Ask us to explain, if you don't understand why Medicare probably won't pay.

Ask us how much these items or services will cost you (Estimated Cost: \$_____), in case you have to pay for them yourself or through other insurance.

PLEASE CHOOSE ONE OPTION. CHECK ONE BOX. SIGN & DATE YOUR CHOICE.

Option 1. YES. I want to receive these items or services. I understand that Medicare will not decide whether to pay unless I receive these items or services. Please submit my claim to Medicare. I understand that you may bill me for items or services and that I may have to pay the bill while Medicare is making its decision. If Medicare does pay, you will refund to me any payments I made to you that are due to me. If Medicare denies payment, I agree to be personally and fully responsible for payment. That is, I will pay personally, either out of pocket or through any other insurance that I have. I understand I can appeal Medicare's decision.

Option 2. NO. I have decided not to receive these items or services. I will not receive these items or services. I understand that you will not be able to submit a claim to Medicare and that I will not be able to appeal your opinion that Medicare won't pay.

Date Signature of patient or person acting on patient's behalf

NOTE: Your health information will be kept confidential. Any information that we collect about you on this form will be kept confidential in our offices. If a claim is submitted to Medicare, your health information on this form may be shared with Medicare. Your health information which Medicare sees will be kept confidential by Medicare.
